

# Baron Winds Project

Case No. 15-F-0122

1001.1 Exhibit 1

June 2018 Update

General Requirements

## EXHIBIT 1 UPDATE TO GENERAL REQUIREMENTS

### (1) Applicant Information

At the time of the filing of the Application, Baron Winds LLC was a wholly-owned subsidiary of EverPower Wind Holdings LLC (EverPower). After an internal corporate reorganization, Baron Winds LLC is a wholly-owned subsidiary of Trireme Energy Development II LLC (“TED II”). Previously, TED II was a wholly-owned subsidiary of Trireme Energy Development LLC (“TED”), which was a wholly owned subsidiary of EverPower Wind Holdings LLC. On or about June 1, 2018, TED transferred TED II to Innogy Renewables US LLC (“Innogy”). Thus, Baron Winds remains a wholly-owned subsidiary of TED II but, as a result of the transaction, TED II is now a wholly-owned subsidiary of Innogy. The transaction with Innogy only involved upstream entities and does not affect the direct ownership of the Baron Winds Project. There will be no change in the identity of the Applicant for the Facility.

Innogy Renewables US LLC is a subsidiary of Innogy SE, a publicly listed and independently managed company since its IPO on October 7, 2016 (MDAX ticker : IGY). Innogy SE operates in three main segments: Grid & Infrastructure, Retail, and Renewables, and is one of the largest energy distribution network operators and electricity retailers in Germany. During 2017, Innogy SE generated €43.1bn of revenue and €4.3bn of adjusted EBITDA.

The company owns and operates more than 3 GW of renewable power generation across 8 countries, supplying the equivalent of 2.5 million households with green electricity. Below is a summary of Innogy SE’s renewable generation portfolio by installed capacity and country as of December 31, 2017.

Net Capacity (MW)	Onshore Wind	Offshore Wind	Hydro	Other	Total
Germany	624	295	380	7	1,306
UK	339	630	84	-	1,053
Spain	447	-	12	-	459
Poland	242	-	-	-	242
Netherlands	295	-	-	-	295
France	-	-	50	-	50
Italy	67	-	-	-	67
Portugal	-	-	16	-	16
<b>Total</b>	<b>2,014</b>	<b>925</b>	<b>542</b>	<b>7</b>	<b>3,488</b>

Headquartered in Chicago, Illinois, with an office in Pittsburgh, Pennsylvania, Innogy Renewables US is a developer of utility-scale wind and solar projects throughout the US and Canada with the intent to be the long term owner and operator of renewable generation projects. Innogy Renewables US is led by Andrew Young,

formerly the Executive Vice President of EDP Renewables Western and Canadian regions. Mr. Young oversees a team of seasoned professionals with significant experience successfully developing energy projects in the US.
